Re: Support for 102,850 <?xml:namespace prefix = st1 ns = "urn:schemas-microsoft-com:office:smarttags" />Square Foot Airport Terminal and EIR No. 37-03

Dear Mayor and Council Member,

I support an improved airport terminal project that will provide adequate terminal space and parking while reducing air pollution and traffic congestion. I agree with the Long Beach Alliance position that the 102,850 square foot terminal with 14 airplane parking positions is the minimum size needed to accommodate the current and future passenger loads.

It is my hope that the City Council actively supports the current Environmental Impact Report (EIR) timeline and avoids further delays. It is time push forward the plan for an improved terminal building at the EIR recommended size of 102,850 square feet.

This improvement has been long overdue; it will be a giant step toward moving Long Beach into the 22nd Century.

Sincerely,
Donna R. Mark
